Assignment 1204a Feedback

This feedback is effectively a code review; to keep it concise, notes are provided as a numbered list. Inline comments in your code illustrate an example of the numbered item (there may be more). Asterisks (*) denote high-priority issues. If any code review item is unclear or if the resulting proficiencies are not self-explanatory, please ask me.

4a — **|**   …*normally the newly-discovered issue 11 would be a spoiler, but we'll let it go here* (**+**)

4b — **|**   …*issue 11 would have hit this too, but you otherwise fixed enough so* (**+**)

4c — **|**   …*as stated, there are some leftovers, but otherwise sufficient improvement* (**+**)

4d — **+**

4e — **|** …Looks like you conflated your direct manipulation and widget work; makes changes harder to follow for each individual program.   …*they're still kind of in the same place, so no change; but yes filenames are better*
